The Aspire Educational Multi Academy Trust

Vision and Values

The aim of AET MAT is to give children and young people from all backgrounds an outstanding education. In so doing, they will acquire the values, skills, knowledge and understanding to prepare them for life beyond the classroom and subsequently succeed. To achieve this aim, we will establish outstanding academies in our local communities and beyond. Our ethos will be based upon full inclusion, high expectations, outstanding teaching and learning and a relentless focus on the needs and potential of every child.

Our core values will shape and inform the operation of the Trust. They are:

- Valuing people
- Equality and diversity
- Ambition
- Challenge
- Rigour
- Accountability
- Transparency
- Partnership

Ethos and mission statement

Each academy will become an outstanding school and work collaboratively with other schools within the MAT for mutual benefit and improvement. Schools will also maintain good working relationships with other local schools, community organisations and the local authority to ensure they fully serve their local communities.

AET Multi Academy Trust Board role and purpose

As a charity and company limited by guarantee, AET MAT (the “Company”) is governed by a board of Trustees (the “Trustees”) who are responsible for, and oversee, the management and administration of the Trust and the academies run by the Trust.

The Trustees are accountable to the Department for Education (DfE) and external government agencies, including the Charity Commission, for the quality of the education they provide and the effective use of the associated academy funding. They are required to have systems in place through which they can assure themselves of quality, financial probity, safety and good practice.

These terms of reference explain the ways in which the board fulfils its responsibilities for the leadership and management of the Trust. They have been adopted by the board in accordance with the Trust’s Articles of Association (the Articles) and should be read in conjunction with those Articles.

Trustees’ powers and responsibilities

The Trust board is responsible for the strategic direction, broad policy framework and oversight of the Trust and all its academies in order to ensure that the MATs vision and values underpin the work of the Trust and its direction of travel.

The board should also ensure the solvency of the Trust, safeguarding its assets and delivering its charitable outcomes. The board oversees the performance of the Trust, including the management of risk. This is largely exercised through strategic planning and the setting of policy. It is managed through business planning, monitoring of budgets, performance management, the setting of standards and the implementation of quality assurance processes.

The Trustees have a duty to act in the fulfilment of the Trust’s ‘objects’. They are:

‘to advance for the public benefit education in the United Kingdom, in particular but without prejudice to the generality of the foregoing by establishing, maintaining, carrying on, managing and developing schools (“the academies”) offering a broad and balanced curriculum.’ (by exercising the powers identified in the Articles of Association, paragraphs 5a –r);

To promote for the benefit of the inhabitants of the areas in which the academies are located and the surrounding areas the provision of facilities for recreation or other leisure time occupation of individuals who have need of such facilities by reason of their youth, age, infirmity or disablement, financial hardship or social and economic circumstances or for the public at large in the interests of social welfare and with the object of improving the condition of life of the said inhabitants’.

Trustees will have regard to the interests of all the academies for which the Trust is responsible in deciding and implementing Trust-wide policies or exercising any authority in respect of an academy.

As per Articles and Master Funding Agreement, the Trust board has sole responsibility for strategic decision making in the Trust. On behalf of the Trust, the board can decide to delegate some (but not all) of its decision making powers to board committees, including a MAT Standards and Resources committee and a Local Academy Committee.

These delegations must take full account of the Trust's legal responsibilities and ensure effective risk management.
